TIP SHEET: Rx ASSISTANCE

Prescription Assistance

If you cannot afford your prescription medications, please tell your doctor. In addition, you may qualify for medication assistance offered by some pharmaceutical companies. You will likely need proof of your finances and your doctor's consent; you may also need to show that you do not have health insurance or a prescription drug benefit through your health insurance. Please contact the pharmaceutical company directly for specific eligibility requirements and application information. Note: Some of these companies may prefer to speak directly with your doctor.
